INDICATED CROP PRODUCTION BY CROP REPORTING DISTRICTS, 1941

To supply information which can be utilized in facilitating the orderly movement of the 1941 crop of wheat and other small grains, the Crop Reporting Board has compiled the following estimates of 1941 corn, oats, barley, rye and flaxseed production by Districts in certain of the northern States. For each State the District estimates total to the official State figures published in the General Crop Report released on August 11, 1941. For the purpose of comparison, estimates by Districts are shown for earlier years.
